

PRESS RELEASE

Cardex Cairo: A great success for SMARTRAC

Amsterdam, June 03, 2008 – SMARTRAC N.V., a leading supplier of RFID components, for the second time already attended this year's Cardex in Cairo, a yearly Middle East event aimed at promoting digital identity assurance solutions in Egypt, Middle East and Africa. The presentation of the company's product range received great interest by the local audience.

Especially SMARTRAC's high security product segment containing RFID components for ePassports and further eID applications appealed to the participants. There was also great interest in the company's products from the standard segment such as components for RFID-based car identification, animal identification and also contactless payment.

"The presentation of our product range at Cardex was a great success. We highly appreciate the positive market reactions and we are looking forward to some interesting projects that resulted from our presence", says Wolfgang Schneider, Chief Sales Officer (CSO) of SMARTRAC.

About SMARTRAC N.V.

SMARTRAC is a leading supplier of RFID (Radio Frequency Identification) components for Standard and High Security product segments. In the Standard segment, the company produces ready-made components for RFID applications in public transport, access control, and logistics. In the High Security segment, SMARTRAC is the global leader in high-quality RFID inlays for passports with integrated, contactless chips (ePassports) and contactless credit cards (ePayment). SMARTRAC was founded in 2000 and since going public in July 2006 has been trading as a stock corporation under Dutch law with its registered headquarters in Amsterdam. At the end of September 2007, the company employed 2,600 employees around the globe.
